

PLANTERS - PLANET JR

Planet Jr.

Planet Jr.

Features and Attachments

1. Power from the front wheel turns the feed wheel in the hopper assuring constant flow of seeds.
2. Seed pass through a hole in the seed plate. The diameter size of the hole controls the amount of seed flow.

Three seed plates with 13 holes each come with every drill. This gives you a total of 39 seed flow adjustments ranging in diameter from 3/32" to 3/4". Holes are numbered for easy selection. No calibration is necessary between drill. Seed plates change easily without fitted tools.

4" of Float: Cradle bracket allows the drill to float a full 4" up and down. Unique springs suspension permits each drill to follow the contour of the ground independently allowing uniform depth of seed.

PLANTERS - PLANET JR

Accurately Meters Hard-To-Handle Seeds

In continuous drill, including tomatoes, onions, sugar beets, cabbage, lettuce, spinach, etc. Special seed plates for multi-row applications are also available.

Row Drills

One-Row, Tractor Mounted

The cradle bracket which is standard on all planet Jr. Seeders provides the float you need for accurate planting behind your tractor. Hitches are available to mount to three-point hitches. Cat. 1.

Multi Row

Hitches available with and without vertical adjustments to mount Planet Jr. To rear-angle frame cultivators, and to 2-1/2" and 4"x4" bars.

Attachments

-  BOK-712 shallow general purpose shoe for planting 0" - 1-1/2" deep. Comes standard on all drills.
-  BOK-812 Deep general purpose shoe for planting 1" to 2-1/2" deep.
-  BOK-762 Shallow upland shoe for planting 0" to 1-1/2" deep in hard soils.
-  BOK-798 Deep upland shoe for planting 1" to 1-1/2" deep in hard soils.
-  BOK-783 2" wide scatter shoe for planting 0" to 1-1/2" deep.
-  BOK-769 4" wide scatter shoe for planting 0" to 1-1/2" deep.
-  B10-039X Narrow brush feed wheel for handling delicate seeds.

Hand Seeder

Hand seeders feature a cut-off for seed hoppers to prevent drilling seeds in turn-rows. The large 3" x 15" diameter front wheel is easy to push. For top performance, all Planet Jr.s feature a 5 quart capacity hopper, spring-loaded seed coverer, and row marker.

Planet Jr.

Complete Line Of Vegetable Drills,
Seeders, Planting Units, Tool Bars
and Attachments.

Model B91-92B Vegetable Drill

Floating cradle bracket
designed for greater stability.
When used with our hitches, the
drill will not twist on the tool
bar assuring accurate spacing.

Automatic seed shut-off
on cradle bracket cuts off
the seed flow when the unit
is raised. Prevents wasting
seeds.

Spring-loaded
dirt scrape
prevents dirt
build-up on
press wheel.

Large 3"x15" front
wheel with enclosed
drive delivers steady
power to the seed
hopper

Cast press wheel
has concave design
for good covering.
Firms the seed bed,
leaving a loose
zone directly over
the seeds.

Seed depth is set
easily by a wing
nut. No fitted tools
are needed.

Floating seed coverer
pulls dirt over seeds.
The amount of float is
adjustable.

Featuring The
Floating Cradle Bracket
