

HLA SNOW

SCATTER SHOT

TAKE AIM AT ICE

Self Loading Broadcast Spreaders

**3 FEET
DROP SPREAD**

SINGLESHOT HS100

**40 FOOT
BROADCAST**

ALL MODELS AVAILABLE IN

The Scattershot makes short work of your spreading tasks. This broadcast spreader comes in Singleshot and Doubleshot models.

The ice won't know what hit him when you take aim with the Singleshot broadcast spreader. The half yard hopper is also a durable scoop ready to load and reload at a moment notice (on select models).

Made of durable galvanized steel, the Scattershot can handle what it dishes out. From sand to salt the internal agitators prevent material from clumping or building up so you get the most out of every load.

Add the optional 3 foot drop shield and this broadcast spreader is ready to take on paths and sidewalks without a lot of overspray.

STANDARD FEATURES

OPTIONAL

MANUAL FLOW RATE
ADJUSTMENT SLIDER

FLOATING AGITATOR

DOUBLESHOT HS200

LOADER MOUNT OR 3-POINT HITCH

Unload both barrels on your biggest jobs with the Doubleshot. This dual broadcast spreader can spread up to 60 feet wide. The twin hoppers are combined into a yard and a half capacity scoop that self loads with ease.

Give your plow all the back up it needs with the 3-point mount. Now you can plow, load and spread all with one machine.
