

Snow Pushers 20-Series

Performance matched to fit Sub-Compact tractors, the 20-Series Snow Pushers are sized to the tractor for maximum performance. Models are available with the “universal” skid steer attach method, which is used on most sub-compact loaders today. Also available are models to fit John Deere 200/300/D120/H120/H130 with hook & pin quick attach.

- Models designed for Sub-Compact tractors up to 32 HP.
- End plates with gentle slope design.
- Adjustable skid shoes of AR-400 material.
- Available in widths of 4' or 5' with either an ultra-rubber edge or alloy steel cutting edge.
- CNC formed 11-gauge moldboard with formed 10-gauge back brace for strength and durability.
- Optional Pull-Back kit available for all models.

WARNING: Read and understand the operator's manual before operation. Be sure tractor/skid steer are properly counterbalanced. Damage to equipment or personal injury could occur.

Snow Pushers 24-Series

Engineered to fit compact tractors equipped with a loader. The 24-Series Snow Pusher is job matched to the tractor for maximum performance.

- Replaceable 1" x 6" reversible Ultra-Rubber cutting edge is standard on "R" models
- Replaceable 3/8" x 6" reversible steel cutting edge is standard on "M" models
- Models to fit loaders with "Universal" skid steer attaching system.
- Models to fit John Deere 200/300/400 series loaders with quick attach system.
- All models feature adjustable & reversible skid shoes of AR-400 steel.

Snow Pushers 36-Series

Engineered for Skid Steer loaders and Utility tractors from 50-90 hp. (depending on model) these 36-Series Snow Pushers consistently deliver the high performance today's operators demand. All models feature an adjustable & reversible 1.5" x 8" Ultra-Rubber cutting edge, 4-inch wide reversible skid shoes of AR-400 steel and 7-gauge moldboard.

- Two (2) 4-inch industrial "C" channels provide solid support.
- Pusher side plates are 36" high (without skid shoe) and 36" deep.
- Ultra-Rubber cutting edge of SBR (Styrene Butadiene Rubber) with a durometer of 65 and a 2500# tensile strength provides high performance and durability.
- Models for Skid Steer Loaders.
- Models for John Deere 400/500 (JD hook & pin) quick change attachment carrier.
- Models for Global / Euro tool carrier.
- Blank Back models to accept weld-on mounting brackets.
- Clamp-on bucket mount models.
