Brilliance assumes no liability pertaining to seeding rates achieved with this seeder. Rates listed are general in nature and should be used as starting points only. Seed varieties and blends listed represent those calibrated through in-house test meters. Variations in actual rates may be realized due to differences in seed lots. For accurate rates with seeds being used, follow the calibration instructions listed on the seed chart inside the box cover or refer to the Operator's Manual. The information listed in the above seed charts is subject to change without notice.

Agricultural Seeders

Small Ag Series (4', 5' & 6')

Model SSBP-6 Shown with Standard Equipment

The SS Series of Agricultural Seeders is the industry standard when it comes to planting alfalfa, canola, and grasses. The Sure Stand concept provides precision seed metering and accurate seed depth placement. This combination offers optimum germination. These 4', 5' and 6' three-point hitch models feature a front micro-metered seed box and a rear seed box with the blade agitator metering system.

STANDARD MACHINE SPECIFICATIONS

Base Unit Height 4'5"	9 1/2" Cast Iron Rear Pulverizer Roller	Both Seed Boxes are Standard Equipment
Base Unit Length 2'6"	8 5/8" Front Pulverizer Axle	Front Seed Box - Micro-Meter
Three-Point Hitch - Cat. I, II Free Link	1 3/4" Rear Pulverizer Axle	Rear Seed Box - Blade Agitator
Three-Point Hitch - Cat. I Quick Coupler Hitch	Greaseable Axle Bearings	Coil Tine Wheel Track Remover
All Welded Structural Steel Frame Construction	Positive Ground Driven Seed Metering	Powder Coat Paint
11 1/2" Cast Iron Front Pulverizer Roller	Broadcast Seed Delivery with Wind Deflector	SMV Emblem

Horsepower Requirements: 35 HP and Up

Approximate Set-Up Time: Factory Assembled (1 Hour of Prep Time)

PRICING INFORMATION

Model Number	Description	Seed Box Capacity	Meter/Opening Spacing (Front/Rear)	Seeding Width	Overall Width	Approximate Weight	Suggested List Price
SSBP-4	4' Three-Point Hitch Seeder with Front and Rear Seed Boxes	1.75 Bu. + 1.75 Bu.	8"/4"	4'	5'	888 lbs.	\$ 10,503.00
SSBP-5	5' Three-Point Hitch Seeder with Front and Rear Seed Boxes	2.187 Bu. + 2.187 Bu.	8 1/2"/4 1/4"	5'	6'	1,061 lbs.	11,339.00
SSBP-6	6' Three-Point Hitch Seeder with Front and Rear Seed Boxes	2.625 Bu. + 2.625 Bu.	6"/4"	6'	7'	1,205 lbs.	11,901.00
SSBS-6	6' Skid Steer (or Three-Point Hitch) Seeder with Front and Rear Seed Boxes	2.625 Bu. + 2.625 Bu.	6"/4"	6'	7'	1,401 lbs.	13,001.00

Shipping Notice: If seeders are to be shipped via commercial carrier, crating is required. Crating charge is \$300.00. Please add part number 7K383 to order for the crating charge for models SSBP-4, SSBP-5 & SSBP-6 and add part number 7K384 for model SSBS-6. Crate weights are as follows: 7K383 - 155 lbs. and 7K384 - 181 lbs.

5% FUEL SURCHARGE WILL BE ADDED TO ALL ORDERS AS OF 10-1-2026

Agricultural Seeders

Standard Series

Model SSB-12 Shown with Optional Acre Meter Kit

The SS Series of Agricultural Seeders has been the industry standard when it comes to planting alfalfa, canola and grasses. The Sure Stand concept provides precision seed metering and accurate seed depth placement. This combination offers optimum germination. The Standard Series is offered in both three-point hitch and pull-type models. Pull-type models include all hydraulic equipment including new implement tires.

STANDARD MACHINE SPECIFICATIONS

Pull-Type Models - 5'2" Transport Height	11 1/2" Cast Iron Rear Pulverizer Roller	Front Seed Box - Micro-Meter
Pull-Type Models - 10" Road Clearance	12 3/4" Front Pulverizer Axle	Rear Seed Box - Blade Agitator
Three-Point Hitch - Cat. II Free Link	8 5/8" Rear Pulverizer Axle	Seed Box Divider Kit for Front Seed Box
Three-Point Hitch - Cat. II, IIIN Quick Coupler Hitch	Greaseable Axle Bearings	Pull-Type Models - Safety Chain Kit
All Welded Structural Steel Frame Construction	Positive Ground Driven Seed Metering	9.5L x 15-8 Ply Tires on Pull-Type Models
15 3/4" Cast Iron Front Pulverizer Roller	Powder Coat Paint	LED Warning Lights & SMV Emblem

Horsepower Requirements: 6 to 8 HP per Foot

Approximate Set-Up Time: Factory Assembled (2 Hours of Prep Time)

If Shipped on Commercial Carrier, Set-Up Time: 4 Hours

Service Tip

Ag Seeder Models with Brome Box

Problem – Brome box shaft working out to the right hand end of the seeder and wearing out the roll pin and retainer plate.

To correct:

- Check that the transmission shaft that drives the brome box is square in the transmission (sprocket must be parallel with the outer case plate) and aligned with the brome box shaft. Loosen bearings and adjust if necessary.
- Check that seed boxes are level and straight from end to end. Loosen and adjust seed boxes from the center and right hand end brackets if necessary. It may also be necessary to make an adjustment of the left hand seed box on the transmission.
- When properly aligned, the square brome box shaft will slide into the drive coupling without binding. Coat the inside of the drive coupling with Never-Seize.
- Any or a combination of the above misalignment conditions can cause the problem

Brillion Seeder FAQ

Can the Brillion SS Series plant cereal grains such as wheat, oats, rye, barley, etc.?

Yes, it can. However, the SS Series has to be equipped with a Brome Box option. Producers need to keep in mind that Brillion does not recommend use of the SS Series for seeding cereal grains as a harvestable crop because the seed will only be placed in the top ¼" to ½" of soil. This is normally too shallow for a harvestable crop.

Brillion assumes no liability pertaining to seeding rates achieved with this seeder. Rates listed are general in nature and should be used as starting points only. Seed varieties and blends listed represent those calibrated through in-house test meters. Variations in actual rates may be realized due to differences in seed lots. For accurate rates with seeds being used, follow the calibration instructions listed on the seed chart inside the box cover or refer to the Operator's Manual. The information listed in the above seed charts is subject to change without notice.

Agricultural Seeders

Mid-Size Series

Model SS-108 Shown with Standard Equipment

The SS Series Mid-Size Seeder offers alfalfa producers the proven Sure Stand concept with larger capacity seed boxes and closer spaced seed meters for an even better distribution of seed, less time spent filling seed boxes and more time seeding. These models are available in both three-point hitch and pull-type models. Pull-type models include all hydraulic equipment including new implement tires. Brome boxes are not an option on these Mid-Size Seeders.

STANDARD MACHINE SPECIFICATIONS

Pull-Type Models - 5'2" Transport Height	11 1/2" Cast Iron Rear Pulverizer Roller	Seed Box - Micro-Meter
Pull-Type Models - 10" Road Clearance	12 3/4" Front Pulverizer Axle	Seed Box Meter Spacing - 4 1/4"
Three-Point Hitch - Cat. II Free Link	8 5/8" Rear Pulverizer Axle	Seed Box Divider Kit
Three-Point Hitch - Cat. II, IIIN Quick Coupler Hitch	Greaseable Axle Bearings	9.5L x 15-8 Ply Tires on Pull-Type Models
All Welded Structural Steel Frame Construction	Positive Ground Driven Seed Metering	LED Warning Lights & SMV Emblem
15 3/4" Cast Iron Front Pulverizer Roller	Pull-Type Models - Safety Chain Kit	Powder Coat Paint

Horsepower Requirements: 6 to 8 HP per Foot

Approximate Set-Up Time: Factory Assembled (2 Hours of Prep Time)

If Shipped on Commercial Carrier, Set-Up Time: 4 Hours

Brilliance assumes no liability pertaining to seeding rates achieved with this seeder. Rates listed are general in nature and should be used as starting points only. Seed varieties and blends listed represent those calibrated through in-house test meters. Variations in actual rates may be realized due to differences in seed lots. For accurate rates with seeds being used, follow the calibration instructions listed on the seed chart inside the box cover or refer to the Operator's Manual. The information listed in the above seed charts is subject to change without notice.

Agricultural Seeders

High Capacity Series

Model SS-2121 Shown with Optional Coil Tine Track Remover

The SS Series High Capacity Seeders are built with many of the same features as the Standard Series and the Mid-Size Series Ag Seeders. A larger seed box capacity with narrow meter spacing provides the ultimate in high efficiency seeding. These units offer the proven Sure Stand concept in both three-point hitch and pull-type models. Pull-type models include all hydraulic equipment including new implement tires. Additional seed boxes are not an option on these High Capacity Series models.

STANDARD MACHINE SPECIFICATIONS

Pull-Type Models - 6'6" Transport Height	12 3/4" Front Pulverizer Axle	Seed Box - Micro-Meter
Pull-Type Models - 1'3" Road Clearance	8 5/8" Rear Pulverizer Axle	Seed Box Meter Spacing - 4 1/4"
Three-Point Hitch - Cat. II Free Link	Greaseable Axle Bearings	9.5L x 15-8 Ply Tires on 8' Pull-Type Models
Three-Point Hitch - Cat. II, IIIN Quick Coupler Hitch	Positive Ground Driven Seed Metering	11L x 15-12 Ply Tires on 10' & 12' Pull-Type Models
All Welded Structural Steel Frame Construction	Seed Box Sight Windows	LED Warning Lights & SMV Emblem
15 3/4" Cast Iron Front Pulverizer Roller	Seed Box Divider Kit	Pull-Type Models - Safety Chain Kit
11 1/2" Cast Iron Rear Pulverizer Roller	Electric Clutch Kit	Powder Coat Paint

Horsepower Requirements: 6 to 8 HP per Foot

Approximate Set-Up Time: Factory Assembled (2 Hours of Prep Time)

If Shipped on Commercial Carrier, Set-Up Time: 4 Hours

Shipping Notice: Seeders are factory assembled (except for drawbar, lights and tires) for shipment on factory and dealer trucks. If seeders are to be shipped via commercial carrier, they are shipped knocked down and crating is required. Crating charge is \$750.00. Crate weights are as follows: 8' - 202 lbs., 10' - 237 lbs., 12' - 272 lbs. Please add part number **7K376** to order for crating charge for 8' seeders, **7K377** for 10' seeders or **7K378** for 12' seeders.

4610-16 Agricultural Seeder

Model SSB-16 Shown with Standard Equipment

The 4610-16 Agricultural Seeder takes the popular Sure Stand Ag Seeder to the next level. The 16' seeding width and 20-bushel capacity front seed box allows the operator to spend more time seeding and less time stopping to fill the seed boxes, maximizing efficiency. The seeder is equipped with the proven Micro-Meter seed metering system and is able to seed a variety of seeds at the correct depth for optimal germination. The 4610-16 features pneumatic down pressure on the rear roller for better seed coverage while squeezing out air pockets in the seedbed. The heavy-duty frame supports the larger seed boxes delivering more weight per foot on the rollers. Soil clods are easily crushed, further fine-tuning the seedbed for excellent germination rates. The 16' Seeder is available in a pull-type or three-point hitch configuration and is available with a single Micro-Meter seed box or with an additional rear brome box.

STANDARD MACHINE SPECIFICATIONS

Pull-Type Models - 7'6" Transport Height	15 3/4" Cast Iron Front Pulverizer Roller	Rear Seed Box Agitator Opening Spacing - 4"

Brillion Elite Mini Monitor

The Brillion Elite Mini Monitor is a full featured display and touch screen interface installed in the operator's tractor. This system is designed to provide accurate information on Ground Speed, Acres Planted, Seeder Unit Clutch Control, Seed Shaft Rotation, and Low Bin Level. This kit is optional on 8, 10, 12, and 16 foot Seeders. The Elite Mini Monitor is standard equipment on both the 4620-24 Folding Seeders.

Note: Do not order the optional electronic acre meter kit when ordering the Elite Mini Monitor. Seeder must be equipped with an electric clutch when adding the Elite Mini Monitor.

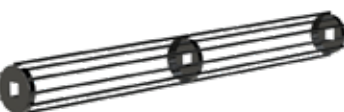

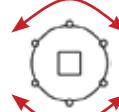

Elite Mini Monitor Features:

- Ground Speed (Implement Mounted Ground Speed Sensor, Radar, GPS Speed or Simulated Speed)
- Field Acres and Total Acre
- Up to 6 Seed Shaft Rotation Sensors
- Up to 6 Low Bin Level Sensors
- Clutch Control (Master or Section)

Main Screen Display (4610-16)

Brillion Agitator Options

	AGITATOR	DIRECTION OF TRAVEL	APPLICATION
Blade Agitator			• Most Universal Agitator • Provides Positive Shut-off • Will Damage Some Large Seeds
5-Strip Brush Agitator			• Native or Fluffy Seeds, Such as Little Bluestem • Do Not Use in Mixtures with Small Seeded Varieties
Cage Agitator			• Seed Varieties that Tend to Bridge, Such as Smooth Brome • Will Not Provide a Positive Shut-off
8-Row Brush Agitator			• Large Seed Varieties and Mixtures, Such as Food Plots • Do Not Use for Grasses
