

4630-36

36' Folding Seeder

Model 4630-36 Shown with SSBP-36 Ag Seeder Configuration and Optional Folding Row Marker Kit

The 4630-36 Folding Seeder is a combination of the proven Landoll front folding grain drill hitch and the iconic Brillion twelve foot Sure Stand Seeder. This provides a state of the art machine with a quick transition from road transport to a 36' seeding width. One of the key features of the 4630-36 is the ability of the main frame to allow each of the three seeders to operate completely independently of each other. The individual, frame mounted three-point hitches raise and lower the seeders without changing the position of the main frame.

STANDARD MACHINE SPECIFICATIONS

(3) 12' Three-Point Hitch Seeders	Electric Clutches on Each Seeder	13'6" Transport Width
Coil Tine Track Remover for Center Section	Seed Shaft Monitor	Hydraulic Leveling Hitch
Wheel Track Removers for Wings	Tires (Wings): (4) 11L x 15-12 Ply	Cast Single Lip Cat. IV Hitch
Safety Chain Kit	Tires (Center Section): (4) 12.5L x 15, (GY-FI) Load F	Brillion Elite Mini Monitor
LED Warning Lights & SMV Emblem	Wheels (Wings): 6 Bolt Hubs with 2" Spindles	Seed Box Divider Kit
Powder Coat Paint	Wheels (Center Section): 8 Bolt Hubs with 2 7/8" Slip In Spindles	

Horsepower Requirements: Minimum of 200 HP

Approximate Set-Up Time: 6 Hours

Seeders

Brillion assumes no liability pertaining to seeding rates achieved with this seeder. Rates listed are general in nature and should be used as starting points only. Seed varieties and blends listed represent those calibrated through in-house test meters. Variations in actual rates may be realized due to differences in seed lots. For accurate rates with seeds being used, follow the calibration instructions listed on the seed chart inside the box cover or refer to the Operator's Manual. *The information listed in the above seed charts is subject to change without notice.*

4620-24

24' Folding Seeder

Model 4620-24 Shown with Optional Coil Tine Track Remover Kit

The 4620-24 Folding Seeder was designed with versatility in mind and helps fill a gap in the Brillion Seeder line-up. The 24' working width is geared towards producers with mid-size row crop tractors who are looking for more seeding capacity than that of the Brillion 12' Seeder but yet do not have the horsepower to pull the large 4630-36 Folding Seeder. The 15-bushel capacity seed box on each seeder section on the 4620-24 model features the proven Micro-Meter seed metering system. The seeder is ground driven and is equipped with an electric clutch on each seeder section. The ability to plant a variety of seeds and precisely place the seeds at the correct depth ensure optimal germination.

The larger seed box capacity allows the operator to spend more time seeding and less time stopping to fill the seed boxes. This versatility and efficiency along with the floating seeder wing design makes the 4620-24 Folding Seeder an ideal fit for agricultural and turf applications.

STANDARD MACHINE SPECIFICATIONS

(2) 12' Seeder Sections	Micro-Meter Seed Box with 6" Meter Spacing	(4) 12.5L x 15 FI Transport Tires Brillion

Seeders

Double Seeder Hitch

Model BDH-512 Shown with Standard Equipment (Seeders Not Included)

The unique design of the Double Seeder Hitch allows for pulling any combination of 8', 10' or 12' pull-type seeders in tandem to expand the seeding width to a maximum of 24 feet. The over-the-top design maintains a transport width only as wide as the widest seeder. The center flex pivot and wide range of adjustments lets each seeder follow the soil's natural contours for consistent seeder operation.

STANDARD MACHINE SPECIFICATIONS

Transport Width (Less Seeders) 8'5"	Drawbar Jack	Tire Size Front: 27 x 9.50 15 10 Ply NHS
Transport Height 7'9"	Safety Chain Kit	Tire Size Rear Caster: 20.5 x 8
Overall Length (Less Seeders) 28'7"	Hydraulics: 3 Remote Circuits	Powder Coat Paint

Horsepower Requirements: Adequate to Safely Support Implements (100HP Minimum)
