Brillion assumes no liability pertaining to seeding rates achieved with this seeder. Rates listed are general in nature and should be used as starting points only. Seed varieties and blends listed represent those calibrated through in-house test meters. Variations in actual rates may be realized due to differences in seed lots. For accurate rates with seeds being used, follow the calibration instructions listed on the seed chart inside the box cover or refer to the Operator's Manual. *The information listed in the above seed charts is subject to change without notice.*

Landscape Seeders

Landscape Series

Model LSS6 Shown with Standard Equipment

The five and six foot LSP and LSS Landscape Seeders have been developed from a long line of very successful seeders. These units use blade agitator seed meters that will seed a wide variety of landscape seeds. The three inch meter spacing provides excellent distribution of seed across the full width of the seeder. The five and six foot LSP models are three-point hitch only. The six foot LSS model comes standard with both a three-point hitch and a skid loader adaptor plate for use on most skid loaders. Various options allow these seeders to be adapted to specialty seeding operations as required.

Standard Machine Specifications		
Base Unit Height 4'5"	11 1/2" Cast Iron Front Pulverizer Roller	Broadcast Seed Delivery with Wind Deflector
Base Unit Length 2'6"	9 1/2" Cast Iron Rear Pulverizer Roller	Seed Box - Blade Agitator
Three-Point Hitch - Cat. I, II Free Link	8 5/8" Front Pulverizer Axle	Seed Box Agitator Opening Spacing - 3"
Three-Point Hitch - Cat. I Quick Coupler Hitch	1 3/4" Rear Pulverizer Axle	Coil Tine Wheel Track Remover
Quick-Attach Mounting Plate on LSS6	Greaseable Axle Bearings	Powder Coat Paint
Skid Steer Mounting Plate Flex - 15 Degrees	Positive Ground Driven Seed Metering	SMV Emblem

Horsepower Requirements: 35 HP and Up

Approximate Set-Up Time: Factory Assembled (1 Hour of Prep Time)

Pricing Information

Model Number	Description	Seed Box Capacity	Seeding Width	Overall Width	Approximate Weight	Suggested List Price
LSP-5	5' Three-Point Hitch Seeder	3.75 Bu.	5'	6'	924 lbs.	$ 10,071.00
LSP-6	6' Three-Point Hitch Seeder	4.5 Bu.	6'	7'	1,006 lbs.	10,688.00
LSS-6	6' Skid Steer (or Three-Point Hitch) Seeder	4.5 Bu.	6'	7'	1,242 lbs.	11,843.00

***** Please specify which agitator (blade or 5-strip brush) is needed when placing order. The price of the agitator is included in the base price of the machine.

Shipping Notice: *If seeders are to be shipped via commercial carrier, crating is required. Crating charge is $300.00. Please add part number **7K383** to order for the crating charge for models LSP-5 and LSP-6 and add part number **7K384** for model LSS-6. Crate weights are as follows: 7K383 - 155 lbs. and 7K384 - 181 lbs.*

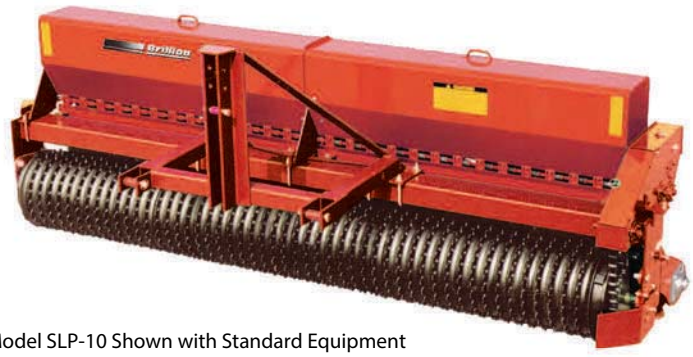
Landscape Seeders

Turfmaker Series



Model SLP-10 Shown with Standard Equipment

The Turfmaker Series raises the bar on the precision seeding of small grass seeds. Large seed box capacity along with narrow meter spacing and the micro-meter adjustment gives this series of Landscape Seeders the edge on the competition. The Turfmaker Series is offered in both three-point hitch and pull-type models. Pull-type models include all hydraulic equipment including new implement tires.

Standard Machine Specifications		
Pull-Type Models - 5'2" Transport Height	11 1/2" Cast Iron Rear Pulverizer Roller	Seed Box - Micro-Meter
Pull-Type Models - 10" Road Clearance	12 3/4" Front Pulverizer Axle	Seed Box Meter Spacing - 4 1/4"
Three-Point Hitch - Cat. II Free Link	8 5/8" Rear Pulverizer Axle	Seed Box Divider Kit
Three-Point Hitch - Cat. II, IIIN Quick Coupler Hitch	Greaseable Axle Bearings	9.5L x 15-8 Ply Tires on Pull-Type Models
All Welded Structural Steel Frame Construction	Positive Ground Driven Seed Metering	LED Warning Lights & SMV Emblem
15 3/4" Cast Iron Front Pulverizer Roller	Pull-Type Models - Safety Chain Kit	Powder Coat Paint

Horsepower Requirements: 6 to 8 HP per Foot

Approximate Set-Up Time: Factory Assembled (2 Hours of Prep Time)
If Shipped on Commercial Carrier, Set-Up Time: 4 Hours

WARNING: The models on this page have difficulty metering varieties of fine or hard fescues. For mixtures with fine or hard fescues, please order the Turfmaker II Series.

Pricing Information						
Model Number	Description	Seed Box Capacity	Seeding Width	Overall Width	Approximate Weight	Suggested List Price
SLP-8	8' Three-Point Hitch Seeder - Notched Rollers	6.0 Bu.	8'	9'6"	1,734 lbs.	$ 17,445.00
SL-10	10' Pull-Type Seeder - Notched Rollers	7.5 Bu.	10'	12'11"	2,394 lbs.	23,940.00

Service Tip

Acre Meter

How often do you hear “the acre meter on my seeder doesn’t work?”

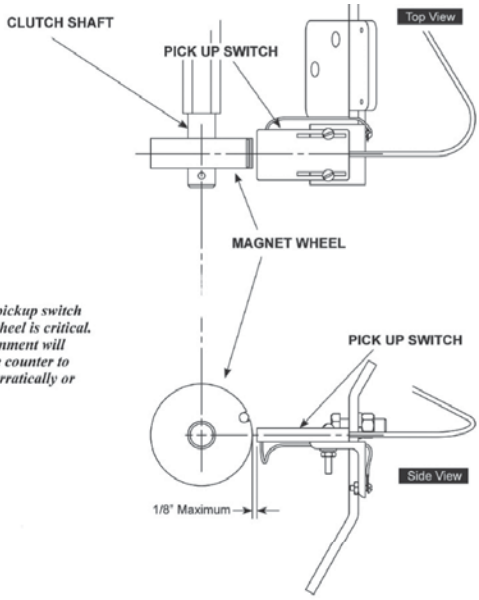
In most cases the alignment of the pick-up switch and magnet wheel or programming is the cause and a minor adjustment will cure the problem. The alignment of the pick-up switch and magnet wheel is critical as shown in the diagram to the right.

The second major cause is incorrect programming of the counter. Refer to the acre meter or the seeder operator’s manual for the correct pulses and width settings for the model of seeder you are working with. Be aware that the width setting has a decimal place.

If the counter is password protected and the password has been lost and you need to change the settings, remove the four screws in the back cover of the counter and remove the three AAA batteries for 15 minutes. This should cancel the password while the total acres, pulses, and width setting should be retained. Reinstall the batteries and program as needed.

New Brillion Electronic Acre Meter

Refer to the Operator’s Manual for Updated Pulse Settings



Note: Alignment of pickup switch and magnet wheel is critical. Improper alignment will cause the acre counter to record acres erratically or not at all.

Brillion Seeder FAQ

What is the difference between an Agricultural Seeder and a Landscape Seeder?

To the untrained eye, the Agricultural and Landscape Seeders look very similar. All use the proven double roller concept with the top mounted seed boxes. There are some distinct differences, however. Most models of the Landscape Seeders are equipped with specific transmissions to allow the seeders to provide rates compatible with the landscape varieties of seed. Yes, some will seed agricultural seed varieties. However, it is recommended to check the rates before seeding. Another difference is that many of the Landscape Seeders use the plastic blade agitator to meter the seed. Some may use a brush type agitator for specialty seeds. Therefore, when working with a customer who is looking to purchase a Brillion seeder, determine what seeds will be seeded and at what rate.

Landscape Seeders

Turfmaker II Series

Model SL-2121 with Optional Coil Tine Track Remover Kit

The Turfmaker II Series features large seed boxes and high capacity seed meters for unequalled capacity in seeding grasses and lawn blends. These units lend themselves to sod seeding operations and the high volume landscape customers. The Turfmaker II Series is offered in both three-point hitch and pull-type models. Pull-type models include all hydraulic equipment including new implement tires. Numerous available options allow the Turfmaker II to be customized to meet special needs.

Standard Machine Specifications		
Pull-Type Models - 5'2" Transport Height	8 5/8" Rear Pulverizer Axle	Large Seed Box Meter Spacing - 4 1/4"
Pull-Type Models - 10" Road Clearance	Greaseable Axle Bearings	Small Seed Box - Micro-Meter
Three-Point Hitch - Cat. II Free Link	Positive Ground Driven Seed Metering	Small Seed Box Meter Spacing - 4 1/4"
Three-Point Hitch - Cat. II, IIIN Quick Coupler Hitch	Seed Box Sight Widows (Large Box)	9.5L x 15-8 Ply Tires on 8' Pull-Type Models
All Welded Structural Steel Frame Construction	Seed Box Divider Kit (Large Box)	11L x 15-12 Ply Tires on 10' & 12' Pull-Type Models
15 3/4" Cast Iron Front Pulverizer Roller	Electric Clutch Kit	LED Warning Lights & SMV Emblem
11 1/2" Cast Iron Rear Pulverizer Roller	Large Seed Box - High Capacity Meter	Pull-Type Models - Safety Chain Kit
12 3/4" Front Pulverizer Axle		Powder Coat Paint

Horsepower Requirements: 6 to 8 HP per Foot

Approximate Set-Up Time: Factory Assembled (2 Hours of Prep Time)
If Shipped on Commercial Carrier, Set-Up Time: 4 Hours
