Safety grate includes  
integrated bag busters

1/2 yard capacity  
(up to 3/4 yard with optional  
hopper extension)

Skid-steer quick attach  
mount on both sides  
for left or right discharge

All buckets come standard with  
two (2) 24" multi-link chutes

# TRANSPORT, MIX, AND DISPENSE CONCRETE, WILDLIFE FEED, AGRICULTURAL GRAINS, GRAVEL, ASPHALT, AND MORE!

With a 1/2 yard base capacity (13.5 cubic ft.), and a 3/4 yard extended capacity (20 cubic ft.), the MAC Bucket replaces the manual labor of moving and mixing materials and is perfect for tight conditions where larger equipment is not ideal. This mixing and conveying (MAC) bucket features a skid-steer quick attach mount on both sides of the bucket, which allows for discharge from both the left and right sides. It is designed with no discharge gate and with the ability to self-load from loose piles, making the MAC Bucket a true one-person operation. All buckets come standard with two (2) multi-linked chutes (24" long) and two (2) 9' long hoses with flush-faced couplers (ISO 16028).

## MATERIAL HANDLING

### Rubber Auger

Concrete  
(up to 1" Slump)

Wildlife Feed

Agricultural  
Grains

### Steel Auger

Sand

Asphalt

Washed Gravel  
(up to 3/4")

# COMPACT SIZE BIG RESULTS

## REPLACE MANUAL MATERIAL MIXING IN TIGHT SPACES!

With a 1/4 yard capacity (6.75 cubic ft.), the Mini MAC is engineered for powerful mixing and precise dispensing in tight spaces like backyards, basements, between buildings, and underground sites. Built for mini-track/skid loaders, this compact mixing and conveying (MAC) bucket features a mini-skid-steer quick attach mount on one end and a manual discharge gate on the other—delivering maximum functionality in a minimal footprint. Each Mini MAC bucket comes standard with one (1) 24" multi-linked chute and two (2) hoses with flush-faced couplers (ISO 16028).

## A HISTORY OF INNOVATION

Established in 1910, Danuser is a 4th generation family owned and operated company. With decades of design and manufacturing experience, we build our products with reliability that will last for generations. From our renowned auger system released in the mid-1940s to the more current designs, our commitment to our customers remains the same - to design and build products that are the benchmark of quality, reliability, and longevity.

In the words of our founder K.B. Danuser, "Good enough won't do – it must be right."

Danuser manufactures industrial and agricultural attachments for various applications, serving many industries worldwide. Please visit [www.danuser.com](http://www.danuser.com) to see our full line of attachments.
