

POWER RAKE

Premier Attachments' mini skid steer Power Rake is engineered to maximize efficiency and durability on any job site, turning tough landscaping and soil preparation tasks into smooth operations. This rugged power rake attachment combines heavy-duty construction with user-friendly features, offering unmatched performance and adaptability for Mini Skid and Bobcat MT mount platforms. Equipped with Premier's patented Duo-Tach® mounting technology (Patent No. 11,280,057), our Power Rake is designed to work seamlessly between both the standard Mini Skid (CII; Common Industry Interface) Mount and the Bobcat MT style mount without the need for tools, giving you flexibility and value for your entire equipment fleet.

Power Rake Key Features:

- **Patent 11.280.057 Duo-Tach® Mount:** Simultaneously and Seamlessly compatible with Bobcat MT mount and Mini Skid mount platforms for universal functionality across multiple machines. No tools or adapters are required to switch between platforms.
- **Operator-Friendly Adjustments:** Enables easy customization and control, making it ideal for operators of all skill levels.
- **Durable Rotor with Welded Carbide Teeth:** Ensures long-lasting performance and efficient material handling, even on the toughest ground.
- **Solid Rubber "No Flat" Tires:** Eliminates downtime from flat tires, providing consistent performance in any environment.
- **Easy Access Grease Points:** Simplifies maintenance and prolongs the life of the attachment by making lubrication quick and easy.
- **Standard Manual Adjustment up to 20 Degrees:** Allows precise control over angle adjustments for targeted material displacement in 5-degree increments to the left or right up to 20 degrees.
- **Adjustable Material Shield:** Protects the operator and surroundings from debris while aiding in breaking up and spreading material evenly.
- **Abrasion-Resistant Steel Runners:** Built to withstand harsh conditions and maintain peak performance throughout prolonged use.
- **Steel Bearing Housings with Replaceable Bearing Protector:** Extends the life of the bearings, ensuring reliability over extended use by preventing unnecessary wear.
- **Bearing-Supported Rotor to Protect Hydraulic Motor:** The rotor is supported by bearings rather than relying on the motor bearings to carry the load, ensuring longevity and efficiency.
- **Hydraulic Angle Option Available:** Upgrade for additional control, enabling operators to adjust angles on the fly with ease.

Experience the Power of Premier Attachments' Power Rake

Premier Attachments' Power Rake is a versatile, high-performing solution designed to handle demanding conditions while providing unmatched adaptability for your Mini Skid or Mini Track Loader regardless of it using the (CII) mini mount or the Bobcat MT mount machines. Its robust features and patented Duo-Tach® mounting technology unlock the full potential of your equipment, reducing the need for multiple attachments and maximizing productivity on the job site.

Never miss another rental opportunity or feel obligated to only one brand of host machine! The Premier Attachments mini skid Power Rake seamlessly fits any Mini Skid or MT mount machine at any time, ensuring compatibility and readiness for any project. No tools or adapters are required to switch from MT to Mini Skid mounts, making transitions quick and hassle-free.
