CAUTION!

Do Not Trail Empty Wagon(s) Over 40 MPH, Especially in Pairs.

Because: (1) Empty wagons bounce. (2) There is no drag on the second unit. (3) Tires and rims in combination aren't balanced. (4) Whip and stopping problems are compounded with speed. SERIOUS DAMAGE MAY RESULT TO YOUR EQUIPMENT THAT COULD ESCALATE INTO MORE SERIOUS PROBLEMS IN TRAFFIC.

The Tire and Rim Companies Further Limit Speed to 20 MPH.

LOW BOY TRAILER

Part Number: LBT-20

Price: 9,275

The easiest trailer to load! This trailer lies flat on the ground; just drive right over it to load/unload.

- 1) Accessible from three sides for easy loading and unloading
- 2) Adjust wheel position while driving to balance the load.
- 3) Minimum space required to operate! Great for unloading in barns or tight spaces; the wheels move, not the trailer.
